Professional Profile

Professional with experience in data analysis and web development, specializing in Power BI, SQL, ReactJS, and WordPress. Skilled in dashboard creation, ETL processes, and query optimization, as well as developing responsive web solutions. Knowledgeable in agile methodologies and coding best practices to ensure project quality and efficiency.

Skills

Power BI • Power Query • MongoDB • SQL • Figma • WordPress • HTML5 • CSS3 • JavaScript • ReactJS • Git • Trello • Scrum • Photoshop • Illustrator

Professional Experience

Maranguape Laticínios – Data Analyst

Mar 2024 – Present | Hybrid (Fortaleza/CE)

- Created and maintained Power BI dashboards, ensuring effective visualizations and actionable insights.
- Performed data modeling in Power BI and integrated data from various sources, including ERP Sapiens and SQL Server.

- Developed and optimized SQL queries for data extraction and manipulation in SQL Server.
- Implemented ETL processes and configured automated data flows in Power BI.

iLean – Data Analysis Intern

Aug 2023 – Mar 2024 | Remote

- Imported data from various sources into Power BI (CRMs, SQL Server, APIs).
- Performed data cleaning and transformation for analysis.
- Developed data models and interactive reports in Power BI Desktop.
- Created relationships between tables to streamline analysis.

Aspider Agency – Web Developer

Jun 2021 – Mar 2024 | Remote

- Developed institutional websites using WordPress, PHP, and JavaScript.
- Created custom themes and dynamic pages with Elementor, Gutenberg, and Beaver Builder.
- Managed servers, databases, and web hosting services.

Scandiweb – Junior React Developer

Jan 2022 – May 2022 | Remote (Latvia)

- Developed ReactJS applications focused on optimizing e-commerce processes.
 - Participated in code reviews to ensure quality and best practices.
 - Used agile methodologies (Scrum) to track and update tasks, reporting progress and results during sprints.
-

Education
